Ackerman, James L. — see Rosen, Harvey M.

Baab, David A.
Commentary on: Effect of orthodontic forces on blood flow in human gingiva; Fall(3), 203

Barbre, Raymond E.; Sinclair, Peter M.
A cephalometric evaluation of anterior openbite correction with the magnetic active vertical corrector; Summer(2), 93

Berg, Rolf
Evaluation of orthodontic results — a discussion of some methodological aspects; Winter(4), 261

Blackwell, David A. — see Nikolai, Robert J.

Bloomquist, Dale S.
Commentary on: Porous block hydroxyapatite in orthognathic surgery; Fall(3) 192

Boese, Lee R.
Commentary on: Mandibular second premolar extraction -postretention evaluation of stability and relapse; Summer(2), 144

Bull, Ricardo — see Miralles, Rodolfo;

Capelli Jr., Jonas
Mandibular growth and third molar impaction in extraction cases; Fall(3), 223

Caputo, Angelo A. — see Chaconas, Spiro J.

Carr, Ronald J. — see Nikolai, Robert J.

Carvajal, Raul — see Miralles, Rodolfo

Catania, Joseph- see Tallents, Ross H.

Chaconas, Spiro J.; Caputo, Angelo A.; Niu, Gary Shi-Lin
Bond strength of ceramic brackets with various bonding systems; Spring(1), 35

Contreras, Luis — see Miralles, Rodolfo

Doppel, Diane M.
Case Report FG: Orthodontic treatment to correct major dental asymmetries; Fall(3), 231

Ford, Ian — see Kerr, W. John S.

Fröhlich, Katrin; Thüer, Urs; Ingervall, Bengt
Pressure from the tongue on the teeth in young adults; Spring(1), 17

Graber, Thomas — see Vardimon, Alexander D.

Grubb, John Eastman
Case Report MP; Summer(2), 155

Hevia, Roberto — see Miralles, Rodolfo

Honkala, Eino — see Kerosuo, Heidi

Horner, Kevin D. — see Nikolai, Robert J.

Ingervall, Bengt — see Fröhlich, Katrin

Isaacson, Robert J. — see Rubenstein, Loretta K.

Jeffries, C.L.; von Fraunhofer, J.A.
The effects of 2% gluteraldehyde solution on the elastic properties of elastomeric chain; Spring(1), 25

Kaley, James; Phillips, Ceib
Factors related to root resorption in edgewise practice; Summer(2), 125

Kapila, Sunil
Commentary on: On the design of looped orthodontic retainer wires; Fall(3), 221

Kataja, Matti — see Peck, Sheldon

Kawata, Terushige — see Yamaguchi, Kazunori

Kerosuo, Heidi; Laine, Tellervo; Nyyssonen, Viljo; Honkala, Eino
Occlusal characteristics in groups of Tanzanian and Finnish urban schoolchildren; Spring(1), 49

Kerr, W. John S.; Ford, Ian
The variability of some craniofacial dimensions; Fall(3), 205

Yamaguchi, Kazunori; Nanda, Ram S.; Kawata, Terushige
Effect of orthodontic forces on blood flow in human gingiva; Fall(3), 193

Wahl, Norman
Historians in the headlines; Spring(1), 67
Historians in the headlines; Summer(2), 153
Historians in the headlines; Fall(3), 235
Historians in the headlines; Winter(4), 303

Wainwright, W. Michael
Commentary on: Determinants controlling iatrogenic external root resorption and repair during and after palatal expansion; Summer(2), 123

Wang, Wei Nan.; Sheen, Der Horng.
The effect of pretreatment with fluoride on the tensile strength of orthodontic bonding; Spring(1), 31

Will, Leslie A.
Commentary on: Quantitation of rotational movements associated with surgical mandibular advancement: Fall(3), 174

Subject Index

Active vertical corrector
A cephalometric evaluation of anterior openbite correction with the magnetic active vertical corrector. Barbre, Sinclair; Summer(2), 93-102

Adolescence
Temporomandibular joint findings in pediatric populations and young adults:a critical review. Tallents, Catania, Sommers; Spring(1), 7-16

Alumina
Comparison of the frictional coefficients for selected archwire-bracket slot combination in the dry and wet states. Kusy, Whitley, Prewitt; Winter(4), 293-301

Analysis
Vertical malocclusions: etiology, development, diagnosis and some aspects of treatment. Nielsen; Winter(4), 247-260

Anterior openbite
A cephalometric evaluation of anterior openbite correction with the magnetic active vertical corrector. Barbre, Sinclair; Summer(2), 93-102

Archwire
Comparison of the frictional coefficients for selected archwire-bracket slot combination in the dry and wet states. Kusy, Whitley, Prewitt; Winter(4), 293-301

Aspect of treatment
Vertical malocclusions: etiology, development, diagnosis and some aspects of treatment. Nielsen; Winter(4), 247-260

Bilateral sagittal split osteotomy
Quantitation of rotational movements associated with surgical mandibular advancement. Rubenstein, Strauss, Isaacson, Lindauer; Fall(3), 167-174

Biomechanics
Biomechanical and clinical changes of the craniofacial complex from orthopedic maxillary protraction. Tanne, Sakuda; Summer(2), 145-152

Bond strength
The effect of pretreatment with fluoride on the tensile strength of orthodontic bonding. Wang, Sheen; Spring(1), 31-34

Bonding systems
Bond strength of ceramic brackets with various bonding systems. Chaconas, Caputo, Niu; Spring(1), 35-42

Bone grafts
Porous block hydroxyapatite in orthognathic surgery. Rosen, Ackerman; Fall(3), 185-192

Bracket
Comparison of the frictional coefficients for selected archwire-bracket slot combination in the dry and wet states. Kusy, Whitley, Prewitt; Winter(4), 293-301

Case presentation
Evaluation of orthodontic results — a discussion of some methodological aspects. Berg; Winter(4), 261-266

Case selection
Evaluation of orthodontic results — a discussion of some methodological aspects. Berg; Winter(4), 261-266

Cephalometry
Skeletal asymmetry in esthetically pleasing faces. Peck, Peck, Kataja; Spring(1), 43-48

Patterns of electromyographic activity in subjects with different skeletal facial types. Miralles, Hevia, Contreras, Carvajal, Bull, Manns; Winter(4), 277-284

Skeletal asymmetry in esthetically pleasing faces. Peck, Peck, Kataja; Spring(1), 43-48

Ceramic brackets
Bond strength of ceramic brackets with various bonding systems. Chaconas, Caputo, Niu; Spring(1), 35-42

Ceramic bracket
Wire friction from ceramic brackets during simulated canine retraction. Tanne, Matsubara, Shibaguchi, Sakuda; Winter(4), 285-292

Child
Temporomandibular joint findings in pediatric populations and young adults: a critical review. Tallents, Catania, Sommers; Spring(1), 7-16

Condylar path angle
An analysis of maximum mandibular movements, craniofacial relationships and temporomandibular joint awareness in children. Rothenberg; Summer(2), 103-112

Craniofacial dimensions
The variability of some craniofacial dimensions. Kerr, Ford; Fall(3), 205-210

Curve of Spee
Quantitation of rotational movements associated with surgical mandibular advancement. Rubenstein, Strauss, Isaacson, Lindauer; Fall(3), 167-174

Dental age
Comparisons between dental and skeletal ages. Lewis; Summer(2), 87-92

Dental occlusion
Temporomandibular joint findings in pediatric populations and young adults:a critical review. Tallents, Catania, Sommers; Spring(1), 7-16

Development
Vertical malocclusions: etiology, development, diagnosis and some aspects of treatment. Nielsen; Winter(4), 247-260

Diagnosis
Vertical malocclusions: etiology, development, diagnosis and some aspects of treatment. Nielsen; Winter(4), 247-260

Disinfection
The effects of 2% gluteraldehyde solution on the elastic properties of elastomeric chain. Jeffries, von Fraunhofer; Spring(1), 25-30

Elastic properties
The effects of 2% gluteraldehyde solution on the elastic properties of elastomeric chain. Jeffries, von Fraunhofer; Spring(1), 25-30

Elastomeric chain
The effects of 2% gluteraldehyde solution on the elastic properties of elastomeric chain. Jeffries, von Fraunhofer; Spring(1), 25-30

Electromyography
Patterns of electromyographic activity in subjects with different skeletal facial types. Miralles, Hevia, Contreras, Carvajal, Bull, Manns; Winter(4), 277-284

Esthetics
Skeletal asymmetry in esthetically pleasing faces. Peck, Peck, Kataja; Spring(1), 43-48

Etching enamel
The effect of pretreatment with fluoride on the tensile strength of orthodontic bonding. Wang, Sheen; Spring(1), 31-34

Ethnic group
Occlusal characteristics in groups of Tanzanian and Finnish urban schoolchildren. Kerosuo, Laine, Nyyssonen, Honkala; Spring(1), 49-56

Etiology
Vertical malocclusions: etiology, development, diagnosis and some aspects of treatment. Nielsen; Winter(4), 247-260

Evaluating treatment results
Evaluation of orthodontic results — a discussion of some methodological aspects. Berg; Winter(4), 261-266

Face
Skeletal asymmetry in esthetically pleasing faces. Peck, Peck, Kataja; Spring(1), 43-48

Facial asymmetry
Skeletal asymmetry in esthetically pleasing faces. Peck, Peck, Kataja; Spring(1), 43-48

Fatigue
On the design of looped orthodontic retainer wires. Nikolai, Horner, Blackwell, Carr; Fall(3), 211-221

Finite element method (FEM)
Biomechanical and clinical changes of the craniofacial complex from orthopedic maxillary protraction. Tanne, Sakuda; Summer(2), 145-152

Friction
Wire friction from ceramic brackets during simulated canine retraction. Tanne, Matsubara, Shibaguchi, Sakuda; Winter(4), 285-292

Comparison of the frictional coefficents for selected archwire-bracket slot combinations in the dry and wet states. Kusy, Whitley, Prewitt; Winter(4), 293-301

Functional occlusion
The relationship between static occlusion and functional occlusion in a dental school population. Tipton, Rinchuse; Spring(1), 57-66

Gingival blood flow
Effect of orthodontic forces on blood flow in human gingiva. Yamaguchi, Nanda, Kawata; Fall(3), 193-204

Heat-treatment
On the design of looped orthodontic retainer wires. Nikolai, Horner, Blackwell, Carr; Fall(3), 211-221

Hydroxyapatite
Porous block hydroxyapatite in orthognathic surgery. Rosen, Ackerman; Fall(3), 185-192

Impaction
Mandibular growth and third molar impaction in extraction cases. Capelli; Fall(3), 223-229

Labial bow
On the design of looped orthodontic retainer wires. Nikolai, Horner, Blackwell, Carr; Fall(3), 211-221

Laser Doppler flowmeter
Effect of orthodontic forces on blood flow in human gingiva. Yamaguchi, Nanda, Kawata; Fall(3), 193-204

LeFort I osteotomy
Long-term soft tissue response to LeFort I maxillary superior repositioning. Sarver; Weissman; Winter(4), 267-276

Mandibular advancement
Quantitation of rotational movements associated with surgical mandibular advancement. Rubenstein, Strauss, Isaacson, Lindauer; Fall(3), 167-174

Mandibular growth
Mandibular growth and third molar impaction in extraction cases. Capelli; Fall(3), 223-229

Magnetic resonance imaging (MRI)
Estimation of tongue volume from magnetic resonance imaging. Lauder, Muhl; Fall(3), 175-184

Magnets
Determinants controlling iatrogenic external root resorption and repair during and after palatal expansion. Vardimon, Graber, Voss, Lenke; Summer(2), 113-124

Malocclusion
Temporomandibular joint findings in pediatric populations and young adults: a critical review. Tallents, Catania, Sommers; Spring(1), 7-16

Occlusal characteristics in groups of Tanzanian and Finnish urban schoolchildren. Kerosuo, Laine, Nyyssonen, Honkala; Spring(1), 49-56

Maturity
Comparisons between dental and skeletal ages. Lewis; Summer(2), 87-92

Maxillary protraction
Biomechanical and clinical changes of the craniofacial complex from orthopedic maxillary protraction. Tanne, Sakuda; Summer(2), 145-152

Maxillary surgery
Long-term soft tissue response to LeFort I maxillary superior repositioning. Sarver; Weissman; Winter(4), 267-276

Maximum mandibular movements
An analysis of maximum mandibular movements, craniofacial relationships and temporomandibular joint awareness in children. Rothenberg; Summer(2), 103-112

Molar intrusion
A cephalometric evaluation of anterior openbite correction with the magnetic active vertical corrector. Barbre, Sinclair; Summer(2), 93-102

Non-working (balancing) contacts
The relationship between static occlusion and functional occlusion in a dental school population. Tipton, Rinchuse; Spring(1), 57-66

Occlusion
Occlusal characteristics in groups of Tanzanian and Finnish urban schoolchildren. Kerosuo, Laine, Nyyssonen, Honkala; Spring(1), 49-56

Occlusion
The variability of some craniofacial dimensions. Kerr, Ford; Fall(3), 205-210

Opening rotation
Quantitation of rotational movements associated with surgical mandibular advancement. Rubenstein, Strauss, Isaacson, Lindauer; Fall(3), 167-174

Oral function
Pressure from the tongue on the teeth in young adults. Frölich, Thüer, Ingervall; Spring(1), 17-24

Orthodontic bonding
The effect of pretreatment with fluoride on the tensile strength of orthodontic bonding. Wang, Sheen; Spring(1), 31-34

Orthodontic force
Effect of orthodontic forces on blood flow in human gingiva. Yamaguchi, Nanda, Kawata; Fall(3), 193-204

Orthodontic tooth movement
Wire friction from ceramic brackets during simulated canine retraction. Tanne, Matsubara, Shibaguchi, Sakuda; Winter(4), 285-292

Orthognathic surgery
Porous block hydroxyapatite in orthognathic surgery. Rosen, Ackerman; Fall(3), 185-192

Palatal expansion
Determinants controlling iatrogenic external root resorption and repair during and after palatal expansion. Vardimon, Graber, Voss, Lenke; Summer(2), 113-124

Postretention
Mandibular second premolar extraction — postretention evaluation of stability and relapse. McReynolds, Little; Summer(2), 133-144

Premolar extraction
Mandibular growth and third molar impaction in extraction cases. Capelli; Fall(3), 223-229

Reactive hyperemia
Effect of orthodontic forces on blood flow in human gingiva. Yamaguchi, Nanda, Kawata; Fall(3), 193-204

Relapse
Mandibular second premolar extraction — postretention evaluation of stability and relapse. McReynolds, Little; Summer(2), 133-144

Resilience
On the design of looped orthodontic retainer wires. Nikolai, Horner, Blackwell, Carr; Fall(3), 211-221

Retainer wire
On the design of looped orthodontic retainer wires. Nikolai, Horner, Blackwell, Carr; Fall(3), 211-221

Review
Temporomandibular joint findings in pediatric populations and young adults: a critical review. Tallents, Catania, Sommers; Spring(1), 7-16

Risk indicators
Factors related to root resorption in edgewise practice. Kaley, Phillips; Summer(2), 125-132

Root resorption
Factors related to root resorption in edgewise practice. Kaley, Phillips; Summer(2), 125-132

Determinants controlling iatrogenic external root resorption and repair during and after palatal expansion. Vardimon, Graber, Voss, Lenke; Summer(2), 113-124

Saliva
Comparison of the frictional coefficients for selected archwire-bracket slot combinations in the dry and wet states. Kusy, Whitley, Prewitt; Winter(4), 293-301

Second premolars
Mandibular second premolar extraction — postretention evaluation of stability and relapse. McReynolds, Little; Summer(2), 133-144

Serial extraction
Mandibular second premolar extraction — postretention evaluation of stability and relapse. McReynolds, Little; Summer(2), 133-144

Shear bond strength
Bond strength of ceramic brackets with various bonding systems. Chaconas, Caputo, Niu; Spring(1), 35-42

Skeletal age
Comparisons between dental and skeletal ages. Lewis; Summer(2), 87-92

Skeletal facial type
Patterns of electromyographic activity in subjects with different skeletal facial types. Miralles, Hevia, Contreras, Carvajal, Bull, Manns; Winter(4), 277-284

Soft tissue
Pressure from the tongue on the teeth in young adults. Frölich, Thüer, Ingervall; Spring(1), 17-24

Long-term soft tissue response to LeFort I maxillary superior repositioning. Sarver; Weissman; Winter(4), 267-276

Stability
Mandibular second premolar extraction — postretention evaluation of stability and relapse. McReynolds, Little; Summer(2), 133-144

Quantitation of rotational movements associated with surgical mandibular advancement. Rubenstein, Strauss, Isaacson, Lindauer; Fall(3), 167-174

Long-term soft tissue response to LeFort I maxillary superior repositioning. Sarver; Weissman; Winter(4), 267-276

Stainless steel
Comparison of the frictional coefficents for selected archwire-bracket slot combinations in the dry and wet states. Kusy, Whitley, Prewitt; Winter(4), 293-301

Static occlusion
The relationship between static occlusion and functional occlusion in a dental school population. Tipton, Rinchuse; Spring(1), 57-66

Sterilization
The effects of 2% gluteraldehyde solution on the elastic properties of elastomeric chain. Jeffries, von Fraunhofer; Spring(1), 25-30

Stress distribution
Biomechanical and clinical changes of the craniofacial complex from orthopedic maxillary protraction. Tanne, Sakuda; Summer(2), 145-152

Surgical orthodontics
Long-term soft tissue response to LeFort I maxillary superior repositioning. Sarver; Weissman; Winter(4), 267-276

Swallowing activity
Patterns of electromyographic activity in subjects with different skeletal facial types. Miralles, Hevia, Contreras, Carvajal, Bull, Manns; Winter(4), 277-284

Temporomandibular joint
Temporomandibular joint findings in pediatric populations and young adults: a critical review. Tallents, Catania, Sommers; Spring(1), 7-16

Temporomandibular joint awareness
An analysis of maximum mandibular movements, craniofacial relationships and temporomandibular joint awareness in children. Rothenberg; Summer(2), 103-112

Tensile bond strength
Bond strength of ceramic brackets with various bonding systems. Chaconas, Caputo, Niu; Spring(1), 35-42

Third molar
Mandibular growth and third molar impaction in extraction cases. Capelli; Fall(3), 223-229

Tonic activity
Patterns of electromyographic activity in subjects with different skeletal facial types. Miralles, Hevia, Contreras, Carvajal, Bull, Manns; Winter(4), 277-284

Tongue
Estimation of tongue volume from magnetic resonance imaging. Lauder, Muhl; Fall(3), 175-184

Tongue pressure
Pressure from the tongue on the teeth in young adults. Frölich, Thüer, Ingervall; Spring(1), 17-24

Topical fluoride
The effect of pretreatment with fluoride on the tensile strength of orthodontic bonding. Wang, Sheen; Spring(1), 31-34

Variability
The variability of some craniofacial dimensions. Kerr, Ford; Fall(3), 205-210

Vertical malocclusions
Vertical malocclusions: etiology, development, diagnosis and some aspects of treatment. Nielsen; Winter(4), 247-260

Volume
Estimation of tongue volume from magnetic resonance imaging. Lauder, Muhl; Fall(3), 175-184

Wire temper
On the design of looped orthodontic retainer wires. Nikolai, Horner, Blackwell, Carr; Fall(3), 211-221
